

A decorative graphic on the left side of the slide, consisting of white lines and circles on a blue gradient background, resembling a circuit board or a stylized tree structure.

MY WEBSITE APP

DESIGNED AND DEVELOPED BY: MICHAL SITARZ

 My Website App

My Website App

With this App you will create your first website, easily (with just few clicks) and totally for free :)
Simply, enter your name and short descriptions, choose the colors for the font and background and that's it!
Hit the [create!] button and your first website is ready! :)
Simple as that! Enjoy it! :)

Enter your name:

Enter description:

Hi, my name is Michael

Welcome on my first website! :)

Hi, I'm a Junior Full Stack Web Developer, which means that I'm sort of Web Developer and Software Developer combined together. I can design and develop Front-End (User Interface and interaction), but also logic "under the bonnet" (how application processes the data using algorithms, data structures and other system resources) in tandem with databases (I can design, create and maintain them as well). Full Stack rocks!
